26. – 28.08.2026

Locations:

Hatten-UAS German Flight Center | Flugplatz Oldenburg-Hatten | Flughafen Bremen

About the Drone Days

The success of the first Drone Days 2024 spoke for itself: After the premiere, it was immediately clear—next time needs more space, more days, and more opportunities! For 2025, a three-day event at two very special locations was developed: The Hatten-UAS German Flight Center at Oldenburg-Hatten airfield, with its rustic and welcoming atmosphere, offers perfect conditions for hands-on demonstrations. Meanwhile, Bremen International Airport opens the door to the world and provides a modern conference vibe. It's a balance that perfectly matches the diverse facets of the Drone Days: business attire on Wednesday, jeans on Thursday, and top-notch entertainment until Friday.

Motivation:

- Strengthen the Northwest Metropolitan Region
- Generate national and European awareness for the AAM-NW
- Highlight the competencies of manned and unmanned aviation

About the Drone Days

The Format:

- Symposium, conference, and networking
- Expert and keynote presentations
- Real-life flying at the Hatten-UAS German Flight Center

Key Stakeholders:

- Involvement of political and administrative bodies (LBA, BAF, BMDV, state aviation authorities)
- Public safety agencies and organizations (BOS)
- Companies and operators, especially those in critical infrastructure
- Academia
- Funding organizations

Agenda Drone Days 2026

Wednesday, August 26, 2026 | Bremenhalle, Bremen Airport

- Expert presentations on current topics and panel discussions
- Evening event with networking opportunities

Thursday, August 27, 2026 | Oldenburg-Hatten Airfield
